User Guide for Inspection Permit Requirements Relating to TEMPORARY CONSTRUCTION POWER

PERMIT LIMITATION: This electrical permit is only for a single inspection for providing temporary electrical service to the construction site of the building or work authorized by an active building permit(s). Usage of the temporary electrical service shall be limited for the purpose of construction only. (Usage of on site construction trailer will require a separate permit). Validity of this electrical permit shall be concurrent with the active status of the building permit(s).

PLOT PLAN: Submit three (3) plot plans indicating location and size of temporary electrical service. For construction of tracts, apartments, condominiums or multiple structure/units, specify location of each supporting span pole and subpanel.

PERMIT APPLICATION: The owner or contractor must complete and sign "Application to Construct Worksheet" (Form No. 284-199) and return to counter technician. If applying by mail, the owner or contractor must complete and sign "Mail-In Permit Application" (Form No. 284-199A) and return to the Department of Building and Safety at one of the addresses listed below.

PERMIT FEE: Current permit cost for temporary construction power is \$ _____ , which includes up to _____ span poles.

INSPECTION REQUIREMENTS: The following requirements listed below, but not limited to, will be verified at inspection.

1. Access to the property shall be provided on the date of requested inspection.
2. Address of the property shall be conspicuously posted.
3. Job card and plot plan shall be posted on the temporary construction power pole/pedestal or piggyback.
4. Service panel equipment installation shall be complete at the time of inspection.
5. Ground fault protection is required for all 110 volt receptacles.

NOTE: Failure to provide the above listed requirements at inspection may necessitate the applicant to obtain a reinspection permit.
