**PROGRAM DESCRIPTION:** This will be the fourth meeting of the Riverside County General Plan Advisory Committee. The sole purpose of the Committee, as established by the Board of Supervisors, is to advise and make recommendations to the Board concerning the first comprehensive general plan review cycle since the 2003 adoption of the current version of the plan. This 2008 update of the general plan is primarily intended to assess General Plan progress and issues related to its implementation. It may include policy, entitlement and technical amendment proposals determined to be an appropriate part of this 5-year cycle. It will extend planning projections another five years into the future, identifying required adjustments in the General Plan, if any, to accommodate anticipated needs. It also includes special considerations to reassess the Vision and Planning Principles and recommit to them. This five-year interval also permits a comprehensive evaluation of CETAP and MSHCP progress, with refinements as necessary to enable further implementation of these programs as they relate to the General Plan
