Thank you Phayvanh,

Please forward to the staff working on this item that the MSHCP Core 4 Linkage must be a top priority since it takes up so much of the Policy area. I understand that there are several proposed developments within this policy area, but they should be designed around the Linkage, instead of the Linkage fitting into their plans. It's a difficult situation with tough decisions to be made. Good luck.

Bob

Hello Robert,

The Planning Dept. recommendation for which may be presented to GPAC at a later date. Please let me know if you have any more questions.

Phayvanh,

Early on (October 14th - General Plan 2008 Amendment Text) the County listed all the areas they were going to look at. On page 22 of the agenda, there was in District 5, No. 2, item b, San Jacinto River and 2-4 DU/Ac Policy Area. I don't see any reference to this item any more. Can you tell me what the status of this item is?

Thank you

Bob Hewitt

Hi Phayvanh,

Attached is my letter concerning the GPAC Northeast Dairies amendment. I see that this item is on the June 18th agenda under "Old Items". Please include it on the web agenda and for the members of the committee. I had sent it earlier, but was too late to get it on the last meeting agenda.

Thank you very much.
